
packagebuilder Documentation

Release 0.0.0.dev0

Dan Ryan and Tzu-ping Chung <dan@danryan.co>

Sep 22, 2018

Contents:

1	packagebuilder package	1
1.1	Submodules	1
1.1.1	packagebuilder.build module	1
2	Indices and tables	3
	Python Module Index	5

packagebuilder package

```
class packagebuilder.BuiltDist (ireq, sources=None, cache_dir=None)
```

```
    Bases: object
```

```
    build()
```

```
packagebuilder.filter_sources (requirement, sources)
```

```
    Returns a filtered list of sources for this requirement.
```

```
    This considers the index specified by the requirement, and returns only matching source entries if there is at least one.
```

```
packagebuilder.find_installation_candidates (ireq, sources, cache_dir=None)
```

```
packagebuilder.get_sources()
```

1.1 Submodules

1.1.1 packagebuilder.build module

```
class packagebuilder.build.BuiltDist (ireq, sources=None, cache_dir=None)
```

```
    Bases: object
```

```
    build()
```

```
packagebuilder.build.build (ireq, sources=None, cache_dir=None)
```

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`

p

`packagebuilder`, [1](#)

`packagebuilder.build`, [1](#)

B

`build()` (in module `packagebuilder.build`), 1
`build()` (`packagebuilder.build.BuiltDist` method), 1
`build()` (`packagebuilder.BuiltDist` method), 1
`BuiltDist` (class in `packagebuilder`), 1
`BuiltDist` (class in `packagebuilder.build`), 1

F

`filter_sources()` (in module `packagebuilder`), 1
`find_installation_candidates()` (in module `packagebuilder`), 1

G

`get_sources()` (in module `packagebuilder`), 1

P

`packagebuilder` (module), 1
`packagebuilder.build` (module), 1
